

# Electronic Logging Devices: Improving Safety Through Technology

## Leading up to Dec. 18, 2017

### PRE-COMPLIANCE: GETTING READY FOR ELDs

Established technology needed to receive ELD data files from devices and send them to safety officials—all electronically

On December 18, 2017, FMCSA was ready

## Dec. 18, 2017–April 1, 2018

### SOFT ROLL OUT: ADOPTING ELDs

Supported industry adoption of new technology and continued to ensure ELD providers understood all requirements

Motor carriers and drivers had time to acclimate to ELDs

## April 1, 2018 and onward

### FULL ROLL OUT: ENFORCING OUT-OF-SERVICE

Since CVSA Out-of-Service criteria went into effect, less than 1% (4,720) of all driver inspections (559,940) have resulted in the driver being cited for operating without a required ELD or grandfathered AOB RD

ELDs are working: Hours of Service violations have dropped significantly

## ELD RESOURCES
